## What do these celebrities have in common?

You guessed it. They are of Afro-Latinx cultural heritage.

This presentation will examine the experiences of people of African descent in Latin America and celebrate their cultural heritage. We will also interrogate black identity politics and anti-blackness. This program will include culture, music, film clips, art, Afro-Latinx narratives, research, and the voices of Afro-Latinx students of Guilford.

Sponsored by the Multicultural Education Department, in collaboration with the Black Student Union, the Foreign Language Department, and Hispanos Unidos de Guilford.
